ESG News Highlights

News #1: What the new IPCC Report tells us about the need for radical climate action

This report follows the one released in August, which estimated the future rise in the Earth's temperature, and precedes the one expected in April, on mitigation measures; such documents are produced every five to seven years.

More

News # 2: Biden Allocates Over \$9 Billion to Develop Clean Hydrogen Capacity in US

The Biden administration announced a series of actions on Tuesday aimed at advancing climate action in the industrial sector and helping foster clean manufacturing, helping manufacturers use clean energy, efficiency upgrades, and other innovative technologies to reduce emissions.
